It's not gonna be
It's not gonna be
It's not gonna be like they've said
It's not gonna be
It's not gonna be
It's not gonna be like the world said
He's coming back
For you and me
It's not gonna be like they've said
It's not gonna be
It's not gonna be
It's not gonna be like the world said

Like a thief in the night
A twinkling of the eye
We'll be risin' up to meet Him
Caught up in the air
With those already there
And we will be made to be like Him

The trumpet will blow
And we're going to go
Don't let your lamp go low
Or when you are asleep
He'll come like a thief
Be gone before your arisin'

The signs are all around
The scoffers' voices sound
Don't listen to their lies
There's a greater one inside
